1) Calculate the following:
   a) The length ‘h’ on the figure. 
   b) The perimeter of the figure. 
   c) The length ‘Z’.

2) The surface area of the figure.
1) Calculate the following:
   a) The length ‘h’ on the figure. \[ h = 6 \text{ km} \]
   b) The perimeter of the figure. \[ 36 \text{ km} \]
   c) The length ‘Z’. \[ Z = 8 \text{ km} \]

2) The surface area of the figure.
   Total area = \[ A + B \]
   \[ A = 6 \text{km} \times 5 \text{km} = 30 \text{ km}^2 \]
   \[ B = 4 \text{km} \times 8 \text{km} = 32 \text{ km}^2 \]
   \[ 30 \text{ km}^2 + 32 \text{ km}^2 = 62 \text{ km}^2 \]
